

# Project 31: Rock Creek Curling

## Meeting 3 Minutes

**Date:** Thursday September 17th, 5:00-5:30 pm

**Attendees:** Brooke Nelson, Brooke Seifert, Katie Miller, George Bauer, Jaron Barrett, Christian Mesa, DJ

**Missing:** N/A

**Upcoming meetings:** Sunday 11:00am via zoom

### **Key Discussion Points:**

- DJ is 4th year PHD student, intersection of computer science and language, *unfortunately* doing AI stuff now
- George and Dj bonded over video games
- DJ role:
  - Check in for milestones and make sure sponsor meetings and everything is going well
  - Observations instead of super involved
- Expectations:
  - Not just about if we meet the requirements, we are concerned with how we get there over the span of the whole year
  - Project charter is a tangible document for us to be able to assess ourselves (agile board is another way to assess this)
  - Meetings:
    - Some amount of importance given to bureaucratic aspect, we also want to focus on seeing where everyone is and make sure everyone is doing well beyond the class
    - Honesty about how we are feeling
  - Camera on for meetings
  - Grading making sure that everyone is invested and fun with each other
  - Planning to block out one half hour thursdays for zoom (5 - 5:30 pm)
  - Friday synchronous in person meeting for hang out and work on our stuff
    - Might be with other teams as well
  - Invested in putting the team in positions to succeed outside of this class
    - Can we make features and roles that cater to what the team wants to do (will discuss at a later date)

### **Upcoming actions:**

- Planning on starting on the project charter soon
- Sharing with the team what personal interest we have in the different aspects of the project
