Key Discussion Points:

- Status Reports:
 - No preferred formatting for that
 - Sprint board, jira
 - Screenshot of a board with some text
- Roles:
 - Computer vision team: George, Jarron, Christian
 - UI/UX team: Brooke and Katie
 - Intermediary and Product: Brooke Nelson
- S3 object store parsing, getting credentials to pull files, little snippet of how to iterate through it
- 6 -10 tuesday and thursday are league nights - usually ideal for chatting
- Andy Plays at 6:00 the 29th
- October 4th world event for good curling hard to talk to people
- Tools from Will: yolo with openCV (probably), yolo is the model he is using to look for rocks
- Try to get open CV to read the scoreboard from the youtube feed

Major decisions:

- Timeline finalization with sprint outlines
- Roles and teams established
- Moving weekly meeting time to Tuesdays 3:30-4:30 in person

Upcoming actions:

- Sprint 1 starts this week
- Booked ITLL room for next week
- Katie and Brooke meeting with Andy on Tuesday 29th at Rock Creek for initial user feedback
