Key Discussion Points:

- Status Update CV:
 - Thinking about implementing the pipeline for image gathering
 - Reading images into open CV should be straight forward
 - Object detection will be brunt of work
 - Haar cascades could be used with the s3 bucket, we have positive images and negative images (do not have the object we are trying to detect)
 - Shape detection could be used alternatively
- Status Update UI:
 - Prototype completed
 - Alternative ideas for presentation of game play page, will consider both image cards for each chapter
- Project charter revisions completed
- Sunday Availability
 - Options are October 18th and November 1st

Major decisions:

- Web app will be prioritized to function on mobile devices

Upcoming actions:

- UI team beginning to move on developing the initial application
- Planning meeting with
- Message DJ about how he would like an update
